The session of Congress just adjourned cannot truly be appraised for several years—not until its amazing and revolutionary acts are dimmed in the fog of execution. It is told that the White House recently wanted to get in touch with the Democratic "Whip" in the lower house, and no one knew the gentleman's name. That is a typical of the most "administration controlled" lower house in many sessions.

That in itself may be bad or good in the public eye, according to how the legislative acts pan out.

Hugh Long saved the senate from being colonized. You may like him or not, but you have to listen to him!

The Republicans will get no where in the fall elections by trying to use the expenditures of the Government spending was and is a trifle.

Virginia's own point with pride to the record of her representatives. Unofficially, they faithfully served the interests of their constituents.

Senator Borah says Congress ought to investigate itself. What, has the Congressional Record got to be read?

Sings to Entire United States Fleet

WHEN the United States fleet of battleships, cruisers, aircraft carriers, destroyers, mine sweepers, training ships and one hospital ship, anchored recently in New York harbor, Harry Richman, who has been singing to the whole United States Navy, so he fitted his amphibian plane with loud speakers, and proceeded to fly from one end of the fleet to the other, and sang songs he sang during the three and a half years he spent in the navy.

Richman, who broadcasts every Wednesday night over a nationwide wide broadcast, usually pilots his own plane but this time allowed some one else to handle the controls. If there wasn't some way he could sing to the whole United States Navy, he would have been disappointed. This is coming from an ex-cop who remembers well the happy days he spent in the navy.

Cherry Days Are Here Again!

• How About Making Some Jelly?

This is Maria, hostess of Maria's Matinee, helping Frances Lee Barton, famous Home Economist, to make cherry jam. "Crush the pulp with a potato masher," Mrs. Barton advises.

CHERRY days are here again! And strawberries are still at their prime! This is indeed the time to lay in your supply for jelly and jams.

Isn't it a great boon to the busy housewife to know that jellies and jams can be made without spending so much time and effort? The bottled fruit pectin to make up for the pectin deficiency of cherries and strawberries and a successful jelly is assured.

Have you ever tried sliced strawberries? Your family will find it a rare treat. And, while on the subject of jellies and jams, be sure to give them plenty of time to set. Some fruits take a week to a month before they reach their final stage. So, don't forget to give them time.

Here are some recipes to start your season with:

Cherry Jelly
(Any kind except wild cherry or chokecherry)
1 cup sliced fruit
1/2 cup sugar
1/2 cup water
1/2 cup pectin
To prepare jelly, stem and crush 1 pound fully ripe cherries. Do not pit. Add 1/2 cup water, bring to a boil, cover, and simmer 10 minutes. (For stronger cherry flavor, add 1/4 cup water.)

Appeals For Safety

Making a strong appeal to the automobile driving public to "do its part" in preventing highway grade crossing accidents, the Norfolk and Western Railway in a statement issued today revealed that 27 per cent of all crossing accidents on its line last year were due to motorists driving into the sides of trains.

"Incredible as it may seem," the statement says, "a recent check made at a number of protected crossings at the N. and W. shows that of the total number of automobile drivers who arrived at crossings after warning signals had begun to operate and before trains reached the crossings, 67 per cent continued to cross the tracks in utter disregard of the warnings." Last year, it is set forth, 145 automobile drivers ran through and broke down N. and W. grade crossing gates "after they had been lowered for their protection against approaching trains." The 1933 grade crossing toll on the N. and W. was six killed and 37 injured.

Methodism Observes Sesquicentennial

South Hill Is Scene Of Celebration

Methodism in America, Rev. R. A. Williams, of Richmond, Rev. Hugh W. Sublett, and Dr. E. B. Paisley will be among the speakers from other denominations.

The old Ebenezer Academy is called the birthplace of Methodism in America and the Virginia conference is the oldest in the nation. It was organized in Brunswick county 150 years ago.

Shirley says he won't have a continuous white line painted up and down all state highways. Some figured the ABC board wanted to use the line for a chalk line, says other Protestant denominations will pay tribute to the record of way.

World's Snapshots
OH, FOR THE LIFE OF A SAILOR
Battled beer and beautiful girls evidently constituted a major portion of the entertainment for these three members of Uncle Sam's fighting fleet when they were on shore leave in New York City recently. This sextette of merry-makers gathered at the Paradise restaurant when the fleet came in to quench their thirst with the bottled beverage.

VALE HONOR
F. D.—President August Yale University, President Roosevelt, and President C. M. of Harvard, visited Woolsey Hall, where the National's Chief Executive awarded his honorary degree from the Connecticut school.

PRETTIEST
From among more than 2,500 girls employed in the Thompson national restaurant system, Miss Flo and Kutina, 16, of Chicago, have been selected as the prettiest.

SALLY TUFF
VERNON, sister of the missing Agnes C. Tuff, one of the missing men, who disappeared after her marriage to "Cap" Tuff, was seen in a photo.

RIOB TWINS
Lionel Rice (right) and Daniel Rice, are twins, three and one-half years of age. Their parents are short. They are identical twins although Lionel has white hair, a fair complexion and blue eyes, while Daniel has dark hair, a dark complexion and brown eyes.

CHORINES
are supposed to be lazy bones when it comes to closing windows on cold mornings. During the heat, Charles Tucker, late of Broadway's War's and Follies, is no exception. Here she is in the lead of the "Follies" air conditioning system. A Century of Progress. The buttons on the bed in control the Frigidair air conditioner that supplies a cool or cold, open or close the sliding doors; open or close the windows; and—believe or not—raise or lower the bed to any position.

Startling price reductions, just announced, place Chevrolet further ahead of its field than ever—in price, quality and value

CHEVROLET In the face of the biggest demand in years, right when the trend toward Chevrolet is at its peak, Chevrolet reduces prices! No wonder America was startled when this news flashed across the country just a few days ago. And now that the public has had a chance to figure out what this price reduction means in terms of greater value, the news becomes even more important than before. Because it means that Chevrolet now offers you a big, substantial, quality car with the famous valve-in-head engine for as little as \$465, f. o. b. Flint, Mich.—making it by far the lowest-priced Six in the world. It means that you can get enclosed Kneec-Action, Blue-Flame performance, cable-controlled brakes, and all the other big advancements of the day, for as much as \$35.00 less than before. And Chevrolet's former prices were already among the lowest of the low. It means, in short, that Chevrolet now presents America with the finest buy the low-price field has ever seen.
